The EAT Framework:

An integrated and streamlined approach to assessment

In Designing Case Studies:

True to core concepts and principles Fidelity:

How much Dose:

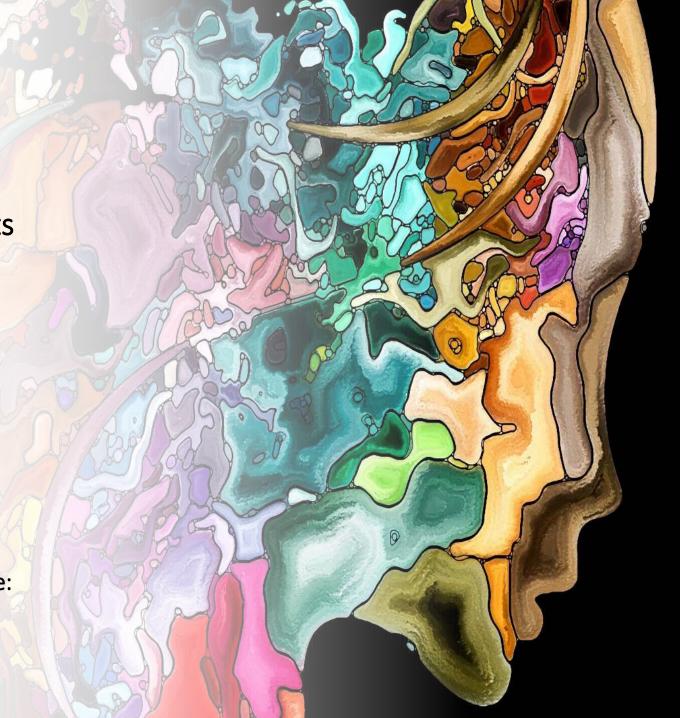

Impact:

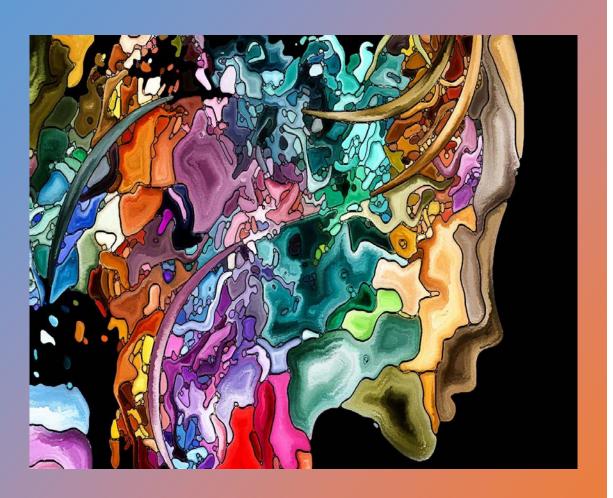

does it get to those it was intended for? Reach:

Significance: what difference does it make:

how much difference? For

whom

OUTCOMES WE ARE LOOKING FOR

Case Studies are for academic year 2021-2022

Which disciplines/ teams are in the projects – aim is to draw from Arts and Humanities; Sciences; Health and Social Care; and Social Sciences.

Time scale for projects for 2021-2022

Unit of focus: Module/programme/ 1 or 2 semesters etc

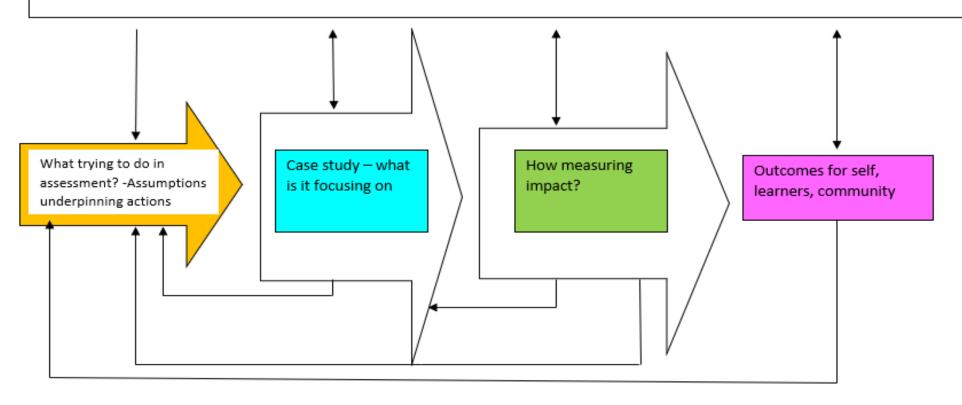

Begin to consider potential focus and plan to bring back to discuss at Session 2

Consider support needed

Exploring your own learning journey (adapted from Moore et al., 2015)

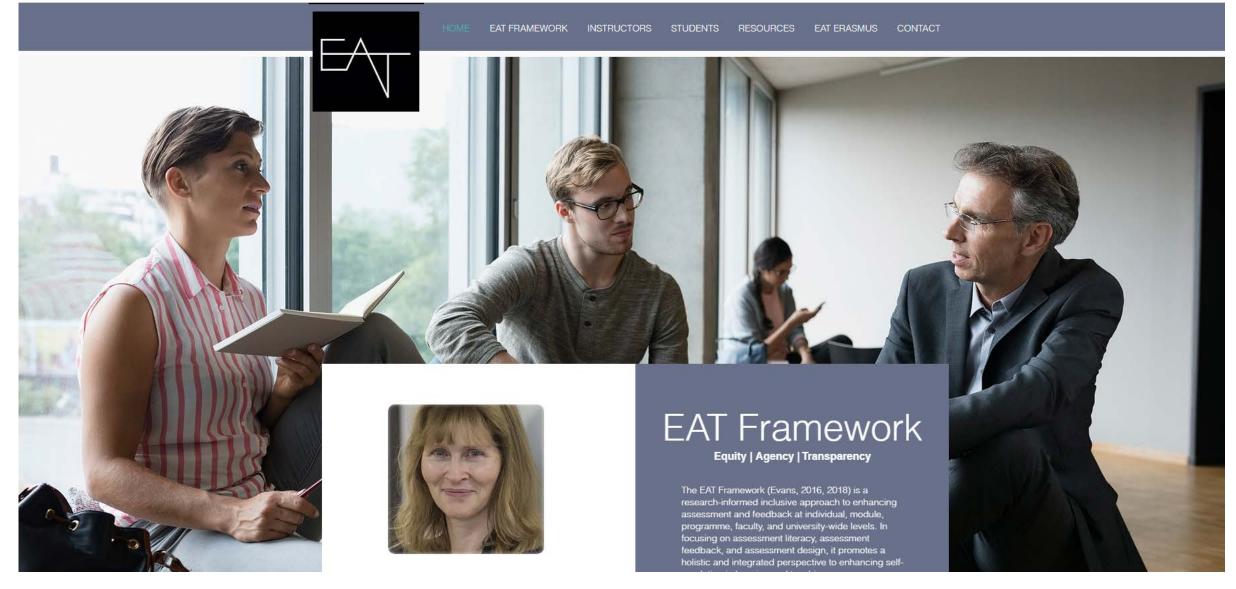

Theories underpinning actions - practice impacting theory: COGNITIVIST/SOCIO-CONSTRUCTVIST- SOCIO-CRITICAL

Contextual and Individual Factors impacting practice: Causal mechanisms present within context which act to sustain the status quo, and potential effects

EATs' Origins

It is a pragmatic expression of systematic research initiated through:

Making Sense of Assessment Feedback in Higher Education

and exploration of 50,000 research studies and implementation across HEIs

and evidence of effectiveness in addressing student/staff engagement and in reducing differential learning outcomes

This article presents a thematic analysis of the research evidence on assessment feedback in higher

education (HE) from 2000 to 2012. The focus of the review is on the feedback that students receive within

their coursework from multiple sources. The aims of this study are to (a) examine the nature of assessment

dominant themes and discourses and consider gaps within the research literature, (c) explore the notion of

the feedback gap in relation to the conceptual development of the assessment feedback field in HE, and (d)

discuss implications for future research and practice. From this comprehensive review of the literature, the concept of the feedback landscape, informed by sociocultural and socio-critical perspectives, is developed

and presented as a valuable framework for moving the research agenda into assessment feedback in HE

feedback in HE through the undertaking of a systematic review of the literature, (b) identify and discuss

54312474350

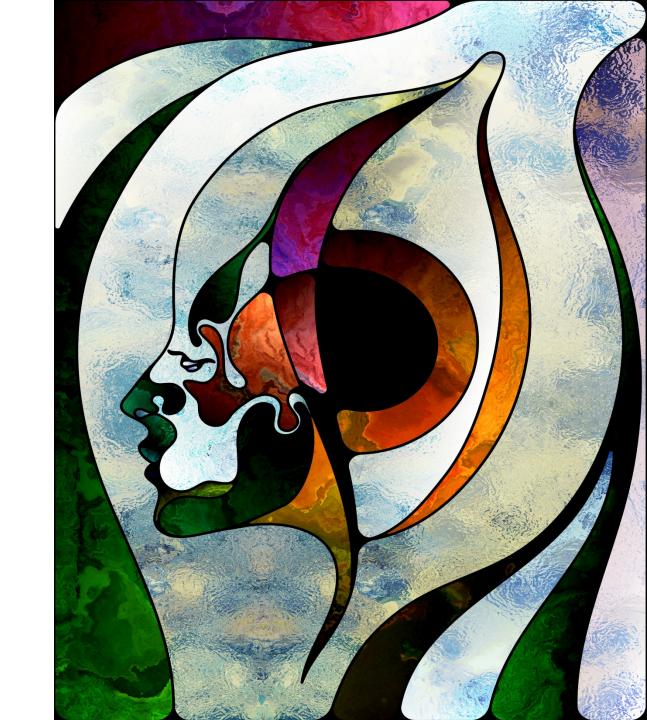

EAT's Premise

How students <u>come to co-own</u> their programs with lecturers and see themselves as active contributors to the assessment feedback process rather than seeing assessment as something that is done to them (EAT, 2016)

Greater emphasis should be placed on assessment designs that promote student engagement with all dimensions of the assessment process as part of 'knowing to'

(Sadler, 2013)

Key Concepts

Inclusive

Integrative
Holistic
Student-staff partnership – Appendix F
Shared beliefs and values
Promotes staff and student agency
Meaningful learning experiences
Sensitive to context
Research-informed

Self-Regulation

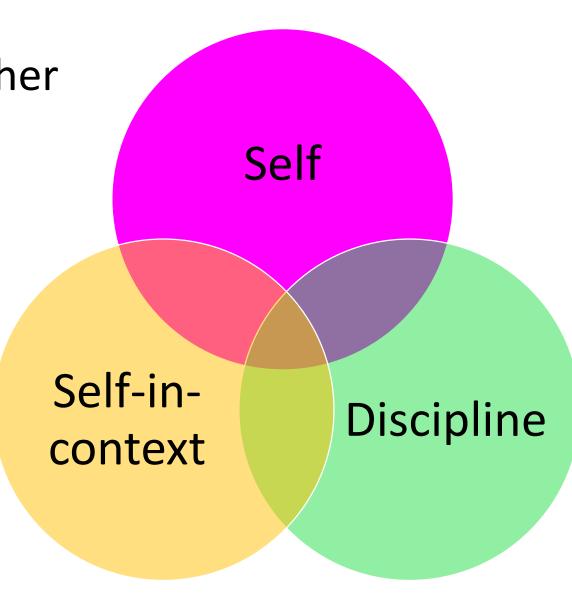

A learner's ability to regulate his/her learning in different contexts

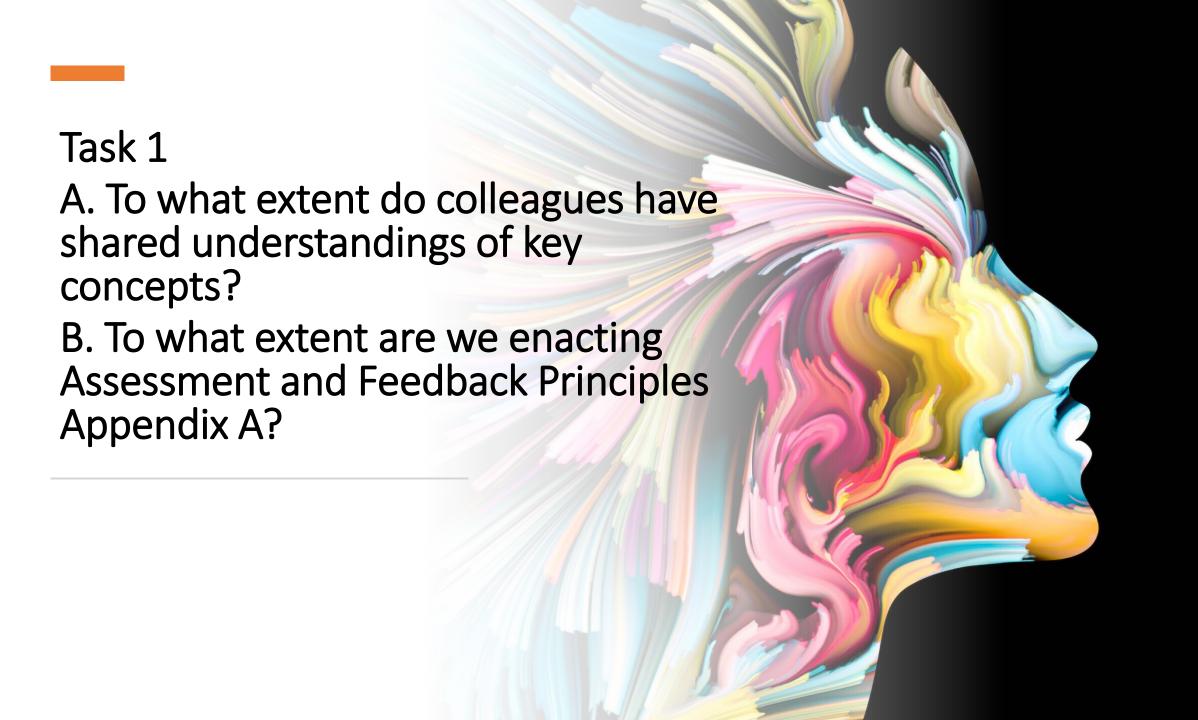

Cognitive how you process info

Metacognitive

understanding how you learn

Affective how you manage your emotions

Three Dimensions:

Assessment Literacy

Assessment Feedback

Assessment Design

All INTERRELATED

Focused on self-regulatory development

Appendix F in Case Study pack p.7
Appendix I Erasmus EAT Selfregulatory templates (to send)

AD4: Ensure ongoing evaluation to support the development of sustainable assessment and feedback practice

AD 3: Ensure access and equal opportunities – Universal Design

Provision of Resources; Guidance; Network Development: Choice

AD 2: Promote meaningful and focused assessment

Fit for Purpose; Relevant, Inclusive; Programme Level Assessment; Collaborative Design; Manageable

AD 1: Ensure robust and transparent processes and procedures: QA literacy

AF 4: Promote development of students' self-evaluation skills

Tools to support self-monitoring, selfassessment, and critical reflection

AL 1: Clarify what constitutes good

Standard of work; recognition and application of good academic practice; student and lecturer beliefs

AL 2: Clarify how assessment elements fit together

AL 3: Clarify student & staff entitlement

Student/Lecturer roles and principles underpinning the 'What', 'When', and 'How' of feedback

AL 4: Clarify the requirements of the
Discipline/Specialism/Context
Core and threshold concepts; deep approach

AF 1: Provide accessible feedback

Specific, and focused on how to improve. Encourage students to clarify their interpretation of the feedback

AF 2: Provide early opportunities for students to act on feedback

Consider the pattern and timing of assessment, and alignment of formative to summative assessment

ASSESSMENT DESIGN

> ASSESSMENT FEEDBACK

AF 3: Prepare students for meaningful dialogue / peer engagement (groupings/training)

Assessment Priority	Things helping you	Things hindering you	Solutions

Task 2:

- 1. Use the wheel to identify which areas you think are most and least well developed.
- 2. What is your main assessment priority and why?
- 3. What factors support and hinder you in developing this.
- 4. How do you get round the barriers?

AD4: Supporting the development of the programme

Am I giving useful feedback on how to enhance assessment feedback practice? How am I owning the programme?

AL 1: What constitutes good? What am I aiming for? Do I know what good looks like? Do I know what to do to meet the assessment criteria and learning outcomes?

AD 3: Making best use of resources

Do I know how to access and make best use of learning resources?

Am I developing networks to support my learning now and into employment?

AD 2: Meaningful work

Am I using the knowledge acquired across modules to inform my overall development?

Am I adopting a deep approach in my work?

AD 1: Do I have a good understanding of HE assessment processes / and regulations?

AF 4: Self-evaluation

Do I know how I am doing?
Do I know what to do when I do not know?
Am I managing my learning effectively?

AL 2: How assessment elements fit together Have I mapped how the assessment works in / across

modules, and how I am going to manage them all?

AL 3: Student and staff entitlement

Do I know what: feedback looks like; support I am entitled to; my role in feedback is?

AL 4: Am I clear about the requirements of the discipline?

Am I aware of the key concepts I need to know and the main ways of working and thinking in my discipline? Do I feel part of the discipline?

AF1: Ensuring I know how to improve

Do I know how to improve my work from the feedback? If it is not clear, what am I doing about it?

AF2: Using formative feedback opportunities

Am I actively seeking out feedback opportunities and making full use of them?

AF3: Have I done the necessary preparation to participate fully in peer dialogue?

How do I support others in giving and receiving feedback?

AD4: Supporting the development of the programme

Am I giving useful feedback on how to enhance assessment feedback practice? How am I owning the programme?

AL 1: What constitutes good? What am I aiming for? Do I know what good looks like? Do I know what to do to meet the assessment criteria and learning outcomes?

AD 3: Making best use of resources

Do I know how to access and make best use of resources?

Am I developing networks to support my learning now and into employment?

AD 2: Meaningful work

Am I using the knowledge acquired across modules to inform my overall development?

Am I adopting a deep approach in my work?

AD 1: Do I have a good understanding of HE assessment processes / requirements?

AL 2: How assessment elements fit together

Have I mapped how the assessment works in / across modules and how I am going to manage this?

AL 3: Student and staff entitlement

Do I know what: feedback looks like; support I am entitled to; my role in feedback is?

AL 4: Am I clear about the requirements of the discipline?

Am I aware of the key concepts I need to know and the main ways of working and thinking in my discipline? Do I feel part of the discipline?

AF1: Ensuring I know how to improve

Do I know how to improve my work from the feedback? If it is not clear, what am I doing about it?

AF2: Using formative feedback opportunities

Am I making full use of opportunities to get feedback on my work? Do I actively seek out feedback opportunities?

AF 4: Self-evaluation

Do I know how I am doing?

Do I know what to do when I do not know?

How am I managing myself?

AF3: Have I done the necessary preparation to participate fully in peer dialogue?

How do I support others in giving and receiving feedback?

Who needs to be involved? Students / staff

ETHICS

What will be our focus?

> What support do teams need?

Next Session: Designing and **Evaluating** your Case Studies

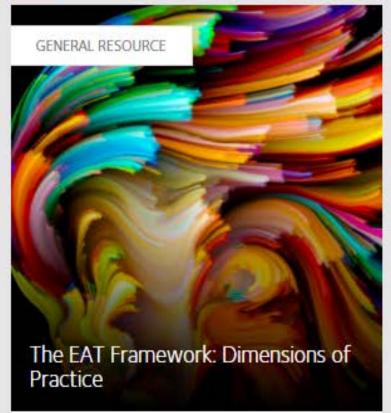

What support do I need

- **Familiarise with Framework**
- **Look at Case study template**
- **Discuss with teams**
- **Bring questions to next** session

Self-regulatory Template to send
